

School of Science and Technology

BIOL 1101K Section 06 (50668)

Biological Sciences I wLab

2026 Summer

Course Description and Prerequisites

Prerequisites: HSGPA ≥ 3.2 or ACT MATH ≥ 17 or SAT MATH ≥ 400 or ACCM ≥ 67 or ACCNGM ≥ 258 or MATH 1001* or MATH 1111* with a C or higher AND ACT ENGL ≥ 17 or SAT CR READ ≥ 430 or (ACCR ≥ 61 and ACCW ≥ 4) or (ACCNGR ≥ 237 and ACCW ≥ 4) or ENGL 1101 C or concurrently Part of the two-semester study of basic biology for non-science majors including one semester of laboratory experience. Upon completion of this course, students will (1) describe the organization of life from the cellular level to the organism; (2) demonstrate critical thinking skills and the scientific process; (3) effectively collect and analyze data and draw conclusions; (4) apply scientific concepts to global issues and perspectives, and distinguish between well-documented scientific studies and popular opinion; (5) communicate scientific topics effectively in oral and written form.

Core IMPACTS

This course is part of Core IMPACTS.

Core IMPACTS consists of seven core curriculum domains (previously identified as areas A-E). Each Core IMPACTS domain is designed around a specific orienting question (goal or topic), learning outcomes, and career-ready competencies.

IMPACTS Domain: Technology, Mathematics and Science

IMPACTS Statement: This is a Core IMPACTS course that is part of the

Technology, Mathematics and Science domain.

Orienting Question(s): How do I ask scientific questions or use data, mathematics, or technology to understand the universe?

Learning Outcome(s): Students will use the scientific method and laboratory procedures or mathematical and computational methods to analyze data, solve problems, and explain natural phenomena.

Career-Ready Competencies: Inquiry and Analysis, Problem-Solving, & Teamwork

Course Outcomes

Upon completion of this course students will:

1. Describe the organization of life from the cellular level to the organism.
2. Demonstrate critical thinking skills and the scientific process.
1. Effectively collect and analyze data and draw conclusions.
4. Apply scientific concepts to global issues and perspectives, and distinguish between well-documented scientific studies and popular opinion.
5. Communicate scientific topics effectively in oral and written form.

The IEE Goals met by the objectives of this course are:

- **IEE-1: Clearly communicate ideas in written and oral form.**
- **IEE-8: Demonstrate competence in quantitative reasoning.**

School Information

Vision Statement

The School of Science and Technology (SST) will become recognized in the region and the state for excellence in STEM education at an open access institution. SST faculty will provide effective and relevant courses and

programs in science, math, and technology which are characterized by interdisciplinary learning, novel use of educational technology, and an active learning environment that stimulates critical thinking.

Mission Statement

The School of Science and Technology is committed to providing an innovative outcomes-based learning experience for all students of Georgia Gwinnett College. It provides programs of study in biology, math, exercise science, and information technology that offer its students disciplinary and interdisciplinary courses, as well as practical and applied learning experiences that prepare them for post-graduate schooling or for positions of responsibility in education, business, medicine or government. The SST also provides general education experiences that produce graduates who demonstrate math, science, and information technology literacy, and that foster an understanding of the role of these disciplines in our society and in an uncertain and changing world. The School's faculty maintain competency in their discipline and are knowledgeable of methods of providing innovative active-learning environments.

School of Science and Technology Policies

Class Attendance and Financial Aid

Please be aware that faculty check attendance in each of your courses and are required to report to the Registrar students who never attend or cease attending a course. Students who are reported as never attended or have ceased attending a course, Financial Aid will be notified and is required to adjust your financial aid award accordingly. If you have any questions about how not attending a course for which you are registered will affect your financial aid eligibility, please contact the Financial Aid Office.

If you feel that you are unable to complete your courses due to illness or family emergency, contact the Registrar's Office to attempt to withdraw from your courses without penalty.

Health & Safety Policy

Certain laboratories include use of strong acids, solvents, and preservatives. Any pregnant women, hypersensitive individuals, or immunocompromised people should report their condition to the instructor and to their physician, preferably before contact with the materials (see lab exercises). Additional instructions for lab will be presented during the first lab. Students are required to follow all instructions. Students failing to conform to lab rules and safety precautions will be first warned by removal from the lab. On second offense, students will be removed from both lecture and lab

Social Media

Follow the School of Science and Technology on Facebook. You will hear about important events and information including Career Services events, scholarships, studies abroad opportunities, summer research opportunities, and employment opportunities.

Faculty Information

Name: Indhira De La Rosa

Email: idelarosa@ggc.edu

Office: I3881

Office Hours: Available by request or appointment.

Department: Biology

[Curriculum Vitae](#)

Class Details

Course Details

BIOL 1101K Section 06 (50668)

Course Title: Biological Sciences I wLab

Credit Hours: 4

Semester Start Date: 05/26/2026 **Semester End Date:** 07/23/2026

Course Start Date: 05/26/2026 **Course End Date:** 07/23/2026

Modality: Online Instruction

Final Exam Details

The final exam will be given during the week of Dec. 3-9 (Full Session and Session B). The date and time of the final exam is set by the registrar and will be posted at the midpoint of the semester. The exam schedule cannot be changed at the convenience of the student. You should not plan to be absent during that week. A make-up final exam will only be given in cases of a verifiable excused absence.

Online/Proctored Tests

In addition, this course requires the use of a proctored testing service/software such as [Respondus LockDown Browser](#), [Respondus Monitor](#), or [ProctorU](#), and a webcam for online exams. The webcam can be built into your computer or can be the type that plugs in with a USB cable. The software may require you to scan the room in which you are taking the test with your webcam. The video of the room scan is only available to the instructor(s) of record, as well as appropriate IT staff and administrators.

If you are at home and have privacy concerns about a webcam scan of your surroundings, you can take the test anywhere you feel comfortable. If you cannot identify such a place, contact your faculty member prior to the date of the test to arrange for a separate room on campus for testing.

Web Conferencing

This course will use [[Microsoft Teams](#)/[Zoom](#)] for online “virtual classroom” video conferencing sessions and collaboration activities. Some or all of the sessions may be recorded. Recordings that do not include video of individual students may be made available, and will only be available to the course instructor and the students enrolled in this course.

Required Course Materials

Connect access code with e-book for 180-day access

ISBN: ISBN: 9781265126742

Resources Needed

Course resources vary by professor.

Service Learning

Please see below

Course Grading

Grading Scale

- A (Excellent) 90-100
- B (Good) 80-89
- C (Fair) 70-79
- D (Poor) 60-69
- F (Failure) 59 and below

Classroom Component (75% of total grade):

Grading table 2

Grading Category	Weight
Pre-Work Assignments	10%
Connect Assignments	10%
Quizzes	10%
Lecture Exams (4)	45%

Laboratory Component (25% of your total grade)

Grading table 5

Grading Category	Weight
Virtual Labs	10%
Lab Exams (4)	15%

Late Work Policy

Typically, late work will not be accepted.

- Please communicate with me in advance of the due date if you have trouble finding, accessing, or completing an assignment. I want you to earn all the points you possibly can, but do not want everyone submitting late work due to procrastination or carelessness.
- Forgetting a deadline or failing to complete assignments by the deadline results in a zero for the assignment.
- Almost all weekly assignments and exams will open on Monday morning and close on the following Monday evening (11:59 PM).
- Exams are video proctored and timed. Once you begin it you must complete it before the allotted time. Therefore, you must have a webcam that shows your face and upper torso.

K Course Grading Policy

Biology 1101 K Course Grading Policy

Lecture	Lab	Final Grade in Class
F	A or B or C or D or F	F
A or B or C or D or F	F	F

This K course is an integrated classroom and laboratory learning experience with a single final course grade determined from the proportional weight of the classroom and laboratory experience. The grade received in BIOL1101K includes 75% classroom and 25% laboratory. However, students must earn

a D or higher in both class and laboratory to earn a single final course grade of D or higher. As an example, single final grade calculation, a student in BIOL1101K earns a 95% (A grade) in the classroom experience and a 55% (F grade) in the laboratory experience. Although the proportional percentage is $[(0.75 \times 95) + (0.25 \times 55)] = 85\%$, the student's single final grade will be an F for the course. If a student requires a single final course grade of D or higher to progress in a course sequence, meet pre-requisites, satisfy academic program requirements, etc., they must earn at least a D in both the classroom and the laboratory experience. In this case, if an F is earned in either portion and the student must repeat the course to satisfy course sequence or academic program requirements, the student must repeat both the classroom and laboratory experience. See the table above for clarification.

Important Dates

Important Dates from the GGC Academic Calendar

Activity	Date
Tuition due Tuition and Fees Deadlines	May 21
Classes begin (Full Session and Session A)	May 26
Drop/add ends (Session A)	May 27
Drop/add ends (Full Session)	May 28
Mid-term grades due (Session A)	June 4
Last day to withdraw with "W" (Session A)	June 10
Classes end (Session A)	June 18
Juneteenth	June 19
Mid-term grades due (Full Session)	June 22
Final exams (Session A) Final exam schedules (login required)	June 22-23
Classes begin (Session B)	June 24
Drop/add ends (Session B)	June 25

Final exams (Session B) Final exam schedules (login required)	July 21-23
Grades due (Full Session and Session B)	July 27, Noon
Grades available in Grizzly Den within Banner	July 28

Course Outline/Assessments

Each week, you are expected to:

- Begin the module promptly by reading the assigned chapters and starting the related assignments within the first two days.
- Read the textbook (which includes embedded videos), take notes, study, and work on assignments throughout the week.
- At the end of the week, verify that all assignments have been completed.

The time required to complete assignments may vary depending on the amount and depth of the material for the week. Exams and quizzes are proctored and timed, with one attempt for exams and two attempts for quizzes.

Every module will include three types of graded assignments:

- Pre-work Assignments
- Connect Assignments
- Quizzes

You should expect to complete work for multiple modules each week.

In addition, every week will include several virtual labs along with virtual lab assignments that are part of the lab portion of the course.

At the end of each topic, you will complete a proctored exam lecture & one for lab to showcase your knowledge. There are also bonus point opportunities for both the lecture and lab portions of the course. These can be found in the Study Guide folder for each topic on D2L.

Your two biggest challenges to successfully completing this course will be to complete all assignments ON TIME and study the material before taking each exam (on time).

Late Work Policy

Typically, late work will not be accepted.

- Please communicate with me in advance of the due date if you have trouble finding, accessing, or completing an assignment. I want you to earn all the points you possibly can, but do not want everyone submitting late work due to procrastination or carelessness.
- Forgetting a deadline or failing to complete assignments by the deadline results in a zero for the assignment.
- Almost all weekly assignments and exams will open on Monday morning and close on the following Monday evening (11:59 PM).
- Exams are video proctored and timed. Once you begin it you must complete it before the allotted time. Therefore, you must have a webcam that shows your face and upper torso!

Course Changes

This course syllabus provides a general plan for this course. The Faculty reserves the right to make changes to the syllabus, including changes to assignments, projects, examinations, etc., in order to accommodate the needs of the class as a whole and fulfill the goals of the course.

Expectations

Expectations of Students

All students at GGC need to have access to a computer and reliable internet. If you do not have a computer, computer labs are available on campus. A limited number of laptops are available for checkout from the

GGC Technology Helpdesk. For an asynchronous course, an issue with your computer or internet is not a valid excuse for missed work.

Students should check GGC email and your MyCourses (Brightspace by D2L) course site daily.

All completed assignments will be submitted through the Connect site link located on MyCourses (Brightspace by D2L). Unless otherwise specified, most Connect assignments are due by Monday 11:59PM on the due date unless other arrangements are made. Late work typically is not accepted, however, exceptions can be made, so please ask.

Academic Integrity

Student Honor Statement: We will not lie, steal, or cheat, nor tolerate the actions of those who do.

Georgia Gwinnett College students are expected to adhere to the highest standards of academic integrity and are expected to encourage others to do the same. Further, students are expected to take responsible action when there is reason to suspect dishonesty on the part of others.

Academic dishonesty carries severe penalties ranging from a grade of "0" on the affected assignment to dismissal from Georgia Gwinnett College.

Examples of specific prohibited actions include but are not limited to the following:

1. Academic Misconduct: Performing, attempting to perform, or assisting another in performing any act of academic dishonesty.
2. Cheating: This act of dishonesty includes, but is not limited to, giving information to or taking information from other students during examinations. Cheating is also committed when students copy from unauthorized sources and/or represent some other person's work as their own. Collaboration on out-of-class assignments or examinations is considered cheating if prohibited by the professor. **The use of Artificial Intelligence ("AI"), on any assignment submitted for credit is prohibited unless specifically permitted by the course instructor.**

3. Plagiarism: This category includes copying material from unpublished or published sources, including electronic resources, and submitting that material as the student's own work. Students are responsible for identifying the proper source and for giving credit to that source anytime that they present ideas which are not their own.
4. Unauthorized Use or Possession of Materials or Resources: Students must not use or possess unauthorized materials or resources in an academic activity.
5. Collusion: This act of dishonesty includes, but is not limited to, buying or selling material that can be misrepresented as a student's own work. In addition, students who fail to report known acts of academic dishonesty on the part of others may be held responsible for collusion.
6. Previously submitted material: Students may not submit work that has been or is being concurrently submitted, in whole or in part, in another class without first having received permission to do so from all the professors involved.
7. Misrepresentation or falsification of material: This act includes, but is not limited to, misrepresenting, fabricating, or altering academic material. In addition, students must not take an examination or test in the name of another student or present another student's work as their own.
8. Misrepresentation of circumstances: Students must not misrepresent personal circumstances (e.g., illness, conflicting responsibilities, etc.) to avoid meeting academic responsibilities or to gain an academic advantage.

All violations of the Academic Integrity Policy shall be resolved via the Faculty Adjudication Process and/or the Formal Resolution (Student Conduct Board hearing through the Dean of Students Office) as outlined in the [Academic Integrity Policy for Academic Dishonesty Matters](#) (Policy 4.1.1.1.2). Students may appeal a penalty as outlined in the [Student Handbook](#) Section 4.6.5, Student Code of Conduct.

Artificial Intelligence

All students should be familiar with the college's policy on [Acceptable Use of Artificial Intelligence \(AI\) for Academic and Administrative Purposes](#) and the [Academic Integrity Policy for Academic Dishonesty Matters](#).

For this course, my expectation regarding the use of Artificial Intelligence (AI) is as follows:

Attendance Policy and Absences

Attendance is a strong indicator of success in this class! Please plan to attend all class sessions and be on time. If you must be absent, please review the [college's attendance policy](#).

It is a best practice to inform me when you must be absent (see my preferred communication method) and discuss the option(s), if any, to make up missed assignments, tests, exams, etc. You do not have to share why you are absent with me directly. If you wish to provide documentation needed for the absence to be considered excused, you may [submit this to the Dean of Students](#), and they will work with you and me.

Complaints and Grade Appeals

If you have course-related issues, please schedule an appointment to meet with me. (See the Faculty Information above for contact details). If we are unable to resolve the issue you may contact the department chair. You may seek further assistance, if needed, through the Dean's office. The college also offers you the option to [file a written student complaint](#).

[Final grade appeals may also be filed](#) if you believe there is an error.

The student complaint process and the grade appeal process are both outlined in the [Student Handbook](#).

Learning Resources

The college offers services and resources designed to help you succeed.

[Academic Enhancement Center \(AEC\)](#)

The AEC provides [in-person tutoring](#), online tutoring via [Tutor.com](#), and structured study sessions known as [Peer Supplemental Instruction](#) (PSI), as well as academic coaches who can advise you on study, test-taking, and time management skills.

[Kaufman Library](#)

The Kaufman Library is home to [full-text articles](#), [e-books](#), [reports](#), [statistics](#), and [videos](#). The [librarians and library staff](#) are available to assist you with locating resources, research needs, course assignments, and more.

[Disability Services](#)

Disability Services provides reasonable accommodations to ensure accessible educational and social environments. If you believe you require an accommodation, [initiate a request for services](#).

[Information Technology](#)

You may contact the [Help Desk](#) if you experience issues with using the technology needed for this course. [Software](#), including [Microsoft Office 365](#) and [Adobe Express](#), is available for your use in [computer labs](#) and classrooms. If you need access to a laptop, the college offers a limited quantity, [need-based laptop loaner program](#).

[Access and Accommodations](#)

Access and Accommodations

It is important that all students have equal access to the classroom and their education. If you have already established accommodations with [Disability Services](#), please provide me with your Faculty Accommodation Notification, with your approved accommodations listed at your earliest convenience.

If you have not yet established services through Disability Services (located in D-1404), but have a permanent disability (such as, but not limited to: mental health, attention-related, learning, vision, hearing, physical, or health

impacts), or a temporary condition that requires accommodations, you are encouraged to contact Disability Services at 678-407-5195 or disabilityservices@ggc.edu.

Disability Services offers resources and coordinates reasonable accommodations for students with disabilities and/or temporary health conditions. Georgia Gwinnett College is committed to creating an inclusive and accessible learning environment consistent with federal and state law.

Pregnancy and Pregnancy-Related Conditions Accommodations Under Title IX

GGC is committed to compliance with Title IX and to supporting the academic success of pregnant students and students with pregnancy-related conditions (pregnancy, childbirth, loss of pregnancy, lactation, and all related medical conditions or recovery).

Students experiencing pregnancy or pregnancy-related conditions may request reasonable accommodations, including but not limited to excused absences, making up missed assignments, restroom breaks, a larger desk, lactation breaks, access to lactation spaces, etc. To request pregnancy-related accommodations, students should contact the Office of Disability Services (email: disabilityservices@ggc.edu; phone: 678-407-5883) or the [Office of Equal Opportunity and Title IX Compliance](#) (email: TitleIX@ggc.edu; phone: 678-407-5085).

Students who believe they have been subject to discrimination or harassment because of their pregnancy status or pregnancy-related condition(s) may file a complaint with the Office of Equal Opportunity and Title IX Compliance.

Well-being and Safety

The college offers many resources and services to support your physical and emotional well-being in a safe environment.

Student Emergency Assistance Programs

Our emergency assistance programs include:

- [Care Pantry](#)
Provides food and necessities to students experiencing financial constraints.
- [Grizzly Thrift](#)
Provides access to free clothing for students.

Health and Wellness Programs

Health Services offers a variety of services to help you stay well.

- [Medical Services](#)
Provides care for minor injuries and illnesses, diagnostic testing, immunizations, and basic over-the-counter medications.
- [Counseling and Psychological Services \(CAPS\)](#)
Provides mental health services.
- [Wellness and Recreation](#)
Provides workout facilities, fitness classes, and intramural sports.

Disability Services

Disability Services provides reasonable accommodations to ensure accessible educational and social environments. If you require an accommodation, [initiate a request for services](#).

Safety and Security

[Public Safety](#) offers many services to help you stay safe on campus, including safety escorts.

You'll want to stay informed about [campus closures and other safety-related notifications](#) via [Rave Alert](#).

Grizzly Care Team

The [Grizzly Care Team](#) brings together professionals from across the college to help you or other members of the college community who may pose a threat to the safety of the college community or an individual. If you see someone experiencing challenges, appearing distressed, posing a threat to their safety or someone else's safety, or causing a significant

disruption to the GGC community, please [submit a Grizzly Care Team referral](#).

Equal Opportunity and Non-Discrimination Statement

Notice of Non-Discrimination

Georgia Gwinnett College is committed to providing a learning, working, and living environment that promotes personal integrity, civility, and mutual respect and is free of all forms of discrimination and harassment. In accordance with applicable law and Georgia Gwinnett College's Non-Discrimination and Anti-Harassment Policy, Georgia Gwinnett College prohibits discrimination on the basis of an individual's race, color, sex (including sexual harassment, marital, parental, and pregnancy status), sexual orientation, gender identity, gender expression, ethnicity or national origin, religion, age, genetic information, disability, creed, or veteran status ("protected status"), or any other protected status or characteristic as defined by law, in its programs and activities. No individual shall be excluded from participation in, denied the benefits of, or otherwise be subjected to unlawful discrimination, harassment, or retaliation under any GGC program or activity because of the individual's protected status.

Georgia Gwinnett College is an equal employment, equal access, and equal educational opportunity institution. It is the policy and practice of our institution to recruit, hire, train, promote, retain, and educate persons without regard to their protected status, as required by applicable state and federal laws (including Title VI, Title VII, Title IX, ADA, Sections 503 and 504 of the Rehabilitation Act, and Executive Order 11246).

Any individual who feels that they may have been discriminated against should contact the Equal Opportunity and Title IX Compliance office at titleix@ggc.edu or 678-407-5085.

Students requiring disability related accommodations, please contact [Disability Services](#).

The following person has been designated to handle inquiries regarding the non-discrimination policies:

Sharon Stellato, J.D., Interim Title IX Coordinator

Building B, Suite 3700

678.407.5085

TitleIX@ggc.edu

For more general information, please visit the [Equal Opportunity and Title IX Office's website](#).

Sexual Misconduct Statement

Title IX prohibits discrimination on the basis of sex in education programs or activities operated by recipients of Federal financial assistance. Georgia Gwinnett College is committed to creating a safe learning environment for all members of our community, free from gender and sex-based discrimination, including sexual harassment, domestic and dating violence, sexual assault, and stalking, in accordance with Title IX of the Education Amendments of 1972. If you or someone you know is experiencing any of these behaviors, the College has staff and resources on campus to support and assist you. For a list of resources, please visit [Sexual Misconduct Resources](#).

Please note that the [Title IX/Sexual Misconduct Policy 4.1.7](#) designates all faculty members, including teaching assistants, as "Responsible Employees." Under GGC's Title IX/Sexual Misconduct Policy, all "Responsible Employees" must report all disclosures of sex or gender-based discrimination or violence to GGC's Title IX Coordinator. The Title IX Coordinator will reach out to provide resources, support, and information after receiving a report, but community members are not required to respond to such outreach. Reported information will remain private.

If you have (or someone you know has) experienced any form of sex or gender-based discrimination or violence and wish to speak with someone confidentially, please contact GGC's Title IX Coordinator at TitleIX@ggc.edu or 678-407-5085. For more information regarding GGC's Title IX procedures, reporting, or support measures, please visit the [Equal Opportunity and Title IX Compliance office's](#) website.
