

School of Science and Technology

ITEC 1001 Section 22 (50512)

Intro to Computing

2026 Summer

Course Description and Prerequisites

Introduction to computers and applications software. Upon completion of this course students will: (1) understand the evolution of information technology and future trends; (2) describe the ethical issues surrounding the uses of digital information; (3) demonstrate proficiency in the use of various personal productivity software; (4) understand the functionality and interaction among the main hardware components of a computer and appropriate terminology; (5) acquire basic knowledge of computer security, protection mechanisms and privacy threats on Internet; (6) understand the role of computing tools in supporting collaborative projects; (7) understand the principles of computer networking; (8) understand different types of systems and application software.

Core IMPACTS

This course is part of Core IMPACTS.

Core IMPACTS consists of seven core curriculum domains (previously identified as areas A-E). Each Core IMPACTS domain is designed around a specific orienting question (goal or topic), learning outcomes, and career-ready competencies.

IMPACTS Domain: Institutional Priority

IMPACTS Statement: This is a Core IMPACTS course that is part of the Institutional domain.

Orienting Question(s): How does my institution help me to navigate the

world?

Learning Outcome(s): Students will demonstrate the ability to think critically and solve problems related to academic priorities at their institution.

Career-Ready Competencies: Critical Thinking, Teamwork, & Time Management

Course Outcomes

Upon completion of this course, students will:

1. Understand the evolution of information technology and future trends.
2. Describe ethical issues surrounding the uses of digital information.
3. Demonstrate proficiency in the use of various personal productivity software.
4. Understand the functionality and interaction among the main hardware components of a computer and appropriate terminology.
5. Acquire basic knowledge of computer security, protection mechanisms and privacy threats on the Internet.
6. Understand the role of computing tools in supporting collaborative projects.
7. Understand the principles of computer networking.
8. Understand the different types of application and systems software and their roles in computing.

School Information

Vision Statement

The School of Science and Technology (SST) will become recognized in the region and the state for excellence in STEM education at an open access institution. SST faculty will provide effective and relevant courses and programs in science, math, and technology which are characterized by

interdisciplinary learning, novel use of educational technology, and an active learning environment that stimulates critical thinking.

Mission Statement

The School of Science and Technology is committed to providing an innovative outcomes-based learning experience for all students of Georgia Gwinnett College. It provides programs of study in biology, math, exercise science, and information technology that offer its students disciplinary and interdisciplinary courses, as well as practical and applied learning experiences that prepare them for post-graduate schooling or for positions of responsibility in education, business, medicine or government. The SST also provides general education experiences that produce graduates who demonstrate math, science, and information technology literacy, and that foster an understanding of the role of these disciplines in our society and in an uncertain and changing world. The School's faculty maintain competency in their discipline and are knowledgeable of methods of providing innovative active-learning environments.

School of Science and Technology Policies

Class Attendance and Financial Aid

Please be aware that faculty check attendance in each of your courses and are required to report to the Registrar students who never attend or cease attending a course. Students who are reported as never attended or have ceased attending a course, Financial Aid will be notified and is required to adjust your financial aid award accordingly. If you have any questions about how not attending a course for which you are registered will affect your financial aid eligibility, please contact the Financial Aid Office.

If you feel that you are unable to complete your courses due to illness or family emergency, contact the Registrar's Office to attempt to withdraw from your courses without penalty.

Health & Safety Policy

Certain laboratories include use of strong acids, solvents, and preservatives. Any pregnant women, hypersensitive individuals, or immunocompromised

people should report their condition to the instructor and to their physician, preferably before contact with the materials (see lab exercises). Additional instructions for lab will be presented during the first lab. Students are required to follow all instructions. Students failing to conform to lab rules and safety precautions will be first warned by removal from the lab. On second offense, students will be removed from both lecture and lab

Social Media

Follow the School of Science and Technology on Facebook. You will hear about important events and information including Career Services events, scholarships, studies abroad opportunities, summer research opportunities, and employment opportunities.

Class Details

Course Details

ITEC 1001 Section 22 (50512)

Course Title: Intro to Computing

Credit Hours: 4

Semester Start Date: 05/26/2026 **Semester End Date:** 07/23/2026

Course Start Date: 05/26/2026 **Course End Date:** 07/23/2026

Class Meeting Day(s): TR

Class Times: 1400 - 1730

Modality: In Person

Meeting Location: C-2125

Final Exam Details

The final exam will be given during the week of Dec. 3-9 (Full Session and Session B). The exam schedule cannot be changed at the convenience of the student. You should not plan to be absent during that week. A make-up final exam will only be given in cases of a verifiable excused absence.

Online/Proctored Tests

This course requires the use of a proctored testing service/software such as [Respondus LockDown Browser](#), [Respondus Monitor](#), or [ProctorU](#), and a webcam for online exams. The webcam can be built into your computer or can be the type that plugs in with a USB cable. The software may require you to scan the room in which you are taking the test with your webcam. The video of the room scan is only available to the instructor(s) of record, as well as appropriate IT staff and administrators.

Required Course Materials

SimNet and ConnectMaster Bundle

Authors: NORDELL LSC GC CMB SMNT OFF; LSC 1

Publisher: McGraw Hill

Notes

ITEC 1001 is part of a textbook program called First Day Access. After enrolling in the course, you should receive an e-mail from GGC Store with instructions on how to access the course content. The purpose of First Day Access is to make sure that you have access to the digital course materials on or before the first day of class at a highly competitive rate. Those who have not opted-out or dropped the class by that date will receive a charge from the bookstore on their student account. You have the ability to Opt-Out through that date via the link in the D2L shell. If you would like to know more about First Day Access, please visit [First Day Digital Course Materials](#).

Additional Resources

McGraw Hill Technical Support

Notes:

For help with Connect and/or SimNet, contact McGraw Hill Technical at 1-800-331-5094

GGC HelpDesk

Notes:

For help with MyCourse and/or [installation of Microsoft 365](#), contact GGC HelpDesk by phone at 678-407-5611 or [by email](#).

Resources Needed

Microsoft Office 2021 or Microsoft Office 365 Pro Plus, which is available free of charge to GGC students through their Clawmail.

Course Grading

You can expect to access the course materials and grades via our course in MyCourses (Brightspace by D2L). Students should check the MyCourses (Brightspace by D2L) course, GGC email, and the course's Team daily, as changes may be announced and recorded on one or more of these places.

Grading Scale

- A (Excellent) 90-100
- B (Good) 80-89
- C (Fair) 70-79
- D (Poor) 60-69
- F (Failure) 59 and below

Grading Percentages

Grading Percentages

Grading Category	Percent Weight
Computer Concepts ALAs (Connect)	15%
Computer Concepts Quizzes (Connect)	5%

Grading Category	Percent Weight
Computer Concepts Activities (Connect/D2L/SimBook)	15%
EXACT Activity	10%
Microsoft Word Application (SimNet)	10%
Microsoft Excel Application (SimNet)	10%
Microsoft PowerPoint Application (SimNet)	10%
Application Software Exams (SimNet)	15%
Computer Concept Exams (Connect)	10%

Late Work Policy

You have been provided a schedule for the entire semester. It is your responsibility to read through the schedule and complete all assigned work. Due dates are clearly listed on the course schedule.

Please make sure that you keep up with the provided schedule. If you know you have a busy day or week, plan ahead. Late submissions of assignments and projects will be accepted, but will receive grade reduction.

It is your responsibility to find internet access (go to a family member's house, Starbucks, etc.) to complete your assignments. You are also always able to use the computer labs on GGC's campus.

Course Outline/Assessments

Assessment Tools

A list of all graded assignments and assessments with percentages can be found in the MyCourses gradebook.

Course Assessments Categories

Computer Concepts: ALAs, Quizzes, and Activities (Connect & D2L & 1 SimBook) – 35%

We will use McGraw Hill ConnectMaster Investigating Technology. ConnectMaster employs Adaptive Learning to tailor a lesson for each student's knowledge and level of understanding. There are 10 chapters in which you will complete the Adaptive Learning Assignment (ALA), chapter activities, and a chapter quiz. Activities must be submitted via Connect,

SimNet, or D2L; no email submissions will be accepted or included in your grade.

Software Applications (Word, Excel, PPT): SimPaths and Projects (SimNet) – 30%

We will use McGraw Hill SimNet web-based simulation to instruct and assess Microsoft Office 2021 applications: Word, PowerPoint, and Excel. SimNet also employs Adaptive Learning. Assignments must be submitted via SimNet; no email submissions will be accepted or included in your grade.

Computer Concepts Exams (Connect) – 10%

The computer concepts exams consist of two exams. The first exam is a cumulative exam covering ConnectMaster chapters 1-5 using Connect; the second is a cumulative exam covering ConnectMaster chapters 6-10 using Connect.

Software Application Exams (SimNet) – 15%

The software application exams consist of three exams: Word, Excel, and PowerPoint.

EXACT Activity – 10%

CAREER READINESS ACTIVITY: This is an activity designed to introduce you to Career Services at GGC and to begin their EXACT ePortfolio. The objectives of this activity are: (1) introduce you to GGC's Career Services and its available resources, (2) introduce you to websites vital in your preparation for entering the professional world, (3) self-evaluation of career readiness, (4) introduce you to the EXACT Scholar Program, and (5) set up your SL&L EXACT ePortfolio for use in this class and future EXACT classes.

This activity represents an opportunity to utilize experiential learning to enhance critical thinking skills. Employers say that completion of active and applied learning (experiential learning) experiences give job applicants a clear advantage. Employers value breadth and depth of learning (critical thinking) which provide the skills and knowledge for long-term career success. The EXACT activities within this course will enable you to demonstrate critical thinking skills while completing experiential learning

activities and reflect upon the knowledge that you have created through these experiences. This activity is vital in preparation for current and future employment.

** Your EXACT assignment will not be graded until after you have completed the SL&L Reflection by the posted due date. This activity occurs over a 4-week period that concludes with the submission of the SL&L Reflection. You will receive a grade of zero (0) for the assignment if you do not complete the SL&L Reflection and/or list the course name, number, and semester that you took this course.

Course Changes

This course syllabus provides a general plan for this course. The Faculty reserves the right to make changes to the syllabus, including changes to assignments, projects, examinations, etc., in order to accommodate the needs of the class as a whole and fulfill the goals of the course.

Expectations

This is an in-person class. Please attend class on time.

Academic Integrity

Student Honor Statement: We will not lie, steal, or cheat, nor tolerate the actions of those who do.

Georgia Gwinnett College students are expected to adhere to the highest standards of academic integrity and are expected to encourage others to do the same. Further, students are expected to take responsible action when there is reason to suspect dishonesty on the part of others.

Academic dishonesty carries severe penalties ranging from a grade of "0" on the affected assignment to dismissal from Georgia Gwinnett College.

Examples of specific prohibited actions include but are not limited to the following:

1. Academic Misconduct: Performing, attempting to perform, or assisting another in performing any act of academic dishonesty.

2. Cheating: This act of dishonesty includes, but is not limited to, giving information to or taking information from other students during examinations. Cheating is also committed when students copy from unauthorized sources and/or represent some other person's work as their own. Collaboration on out-of-class assignments or examinations is considered cheating if prohibited by the professor. **The use of Artificial Intelligence ("AI"), on any assignment submitted for credit is prohibited unless specifically permitted by the course instructor.**
3. Plagiarism: This category includes copying material from unpublished or published sources, including electronic resources, and submitting that material as the student's own work. Students are responsible for identifying the proper source and for giving credit to that source anytime that they present ideas which are not their own.
4. Unauthorized Use or Possession of Materials or Resources: Students must not use or possess unauthorized materials or resources in an academic activity.
5. Collusion: This act of dishonesty includes, but is not limited to, buying or selling material that can be misrepresented as a student's own work. In addition, students who fail to report known acts of academic dishonesty on the part of others may be held responsible for collusion.
6. Previously submitted material: Students may not submit work that has been or is being concurrently submitted, in whole or in part, in another class without first having received permission to do so from all the professors involved.
7. Misrepresentation or falsification of material: This act includes, but is not limited to, misrepresenting, fabricating, or altering academic material. In addition, students must not take an examination or test in the name of another student or present another student's work as their own.
8. Misrepresentation of circumstances: Students must not misrepresent personal circumstances (e.g., illness, conflicting responsibilities, etc.) to avoid meeting academic responsibilities or to gain an academic advantage.

All violations of the Academic Integrity Policy shall be resolved via the Faculty Adjudication Process and/or the Formal Resolution (Student Conduct Board hearing through the Dean of Students Office) as outlined in the [Academic Integrity Policy for Academic Dishonesty Matters](#) (Policy 4.1.1.1.2). Students may appeal a penalty as outlined in the [Student Handbook](#) Section 4.6.5, Student Code of Conduct.

Artificial Intelligence

All students should be familiar with the college's policy on [Acceptable Use of Artificial Intelligence \(AI\) for Academic and Administrative Purposes](#) and the [Academic Integrity Policy for Academic Dishonesty Matters](#).

For this course, my expectation regarding the use of Artificial Intelligence (AI) is as follows:

AI Use Permitted Only in Certain Cases

The use of artificial-intelligence (AI) tools – including but not limited to text, image, video, or code generators, research assistants, or problem-solving systems – is prohibited unless the instructions for a particular assignment, activity, or assessment state otherwise. Unauthorized use of AI may constitute academic misconduct under the college's Policy on Academic Integrity. If you are unsure whether an action constitutes AI use, ask me before proceeding.

Attendance Policy and Absences

Attendance is a strong indicator of success in this class! Please plan to attend all class sessions and be on time. If you must be absent, please review the [college's attendance policy](#).

It is a best practice to inform me when you must be absent (see my preferred communication method) and discuss the option(s), if any, to make up missed assignments, tests, exams, etc. You do not have to share why you are absent with me directly. If you wish to provide documentation needed for the absence to be considered excused, you may [submit this to the Dean of Students](#), and they will work with you and me.

Complaints and Grade Appeals

If you have course-related issues, please schedule an appointment to meet with me. (See the Faculty Information above for contact details). If we are unable to resolve the issue you may contact the department chair. You may seek further assistance, if needed, through the Dean's office. The college also offers you the option to [file a written student complaint](#).

[Final grade appeals may also be filed](#) if you believe there is an error.

The student complaint process and the grade appeal process are both outlined in the [Student Handbook](#).

Learning Resources

The college offers services and resources designed to help you succeed.

[Academic Enhancement Center \(AEC\)](#)

The AEC provides [in-person tutoring](#), online tutoring via [Tutor.com](#), and structured study sessions known as [Peer Supplemental Instruction](#) (PSI), as well as academic coaches who can advise you on study, test-taking, and time management skills.

[Kaufman Library](#)

The Kaufman Library is home to [full-text articles](#), [e-books](#), [reports](#), [statistics](#), [and videos](#). The [librarians and library staff](#) are available to assist you with locating resources, research needs, course assignments, and more.

[Disability Services](#)

Disability Services provides reasonable accommodations to ensure accessible educational and social environments. If you believe you require an accommodation, [initiate a request for services](#).

[Information Technology](#)

You may contact the [Help Desk](#) if you experience issues with using the technology needed for this course. [Software](#), including [Microsoft Office 365](#)

and [Adobe Express](#), is available for your use in [computer labs](#) and classrooms. If you need access to a laptop, the college offers a limited quantity, [need-based laptop loaner program](#).

Access and Accommodations

Access and Accommodations

It is important that all students have equal access to the classroom and their education. If you have already established accommodations with [Disability Services](#), please provide me with your Faculty Accommodation Notification, with your approved accommodations listed at your earliest convenience.

If you have not yet established services through Disability Services (located in D-1404), but have a permanent disability (such as, but not limited to: mental health, attention-related, learning, vision, hearing, physical, or health impacts), or a temporary condition that requires accommodations, you are encouraged to contact Disability Services at 678-407-5195 or disabilityservices@ggc.edu.

Disability Services offers resources and coordinates reasonable accommodations for students with disabilities and/or temporary health conditions. Georgia Gwinnett College is committed to creating an inclusive and accessible learning environment consistent with federal and state law.

Pregnancy and Pregnancy-Related Conditions Accommodations Under Title IX

GGC is committed to compliance with Title IX and to supporting the academic success of pregnant students and students with pregnancy-related conditions (pregnancy, childbirth, loss of pregnancy, lactation, and all related medical conditions or recovery).

Students experiencing pregnancy or pregnancy-related conditions may request reasonable accommodations, including but not limited to excused absences, making up missed assignments, restroom breaks, a larger desk, lactation breaks, access to lactation spaces, etc. To request pregnancy-related accommodations, students should contact the Office of Disability Services (email: disabilityservices@ggc.edu; phone: 678-407-5883) or the

[Office of Equal Opportunity and Title IX Compliance](#) (email: TitleIX@ggc.edu; phone: 678-407-5085).

Students who believe they have been subject to discrimination or harassment because of their pregnancy status or pregnancy-related condition(s) may file a complaint with the Office of Equal Opportunity and Title IX Compliance.

Well-being and Safety

The college offers many resources and services to support your physical and emotional well-being in a safe environment.

Student Emergency Assistance Programs

Our emergency assistance programs include:

- [Care Pantry](#)
Provides food and necessities to students experiencing financial constraints.
- [Grizzly Thrift](#)
Provides access to free clothing for students.

Health and Wellness Programs

Health Services offers a variety of services to help you stay well.

- [Medical Services](#)
Provides care for minor injuries and illnesses, diagnostic testing, immunizations, and basic over-the-counter medications.
- [Counseling and Psychological Services \(CAPS\)](#)
Provides mental health services.
- [Wellness and Recreation](#)
Provides workout facilities, fitness classes, and intramural sports.

Disability Services

Disability Services provides reasonable accommodations to ensure accessible educational and social environments. If you require an accommodation, [initiate a request for services](#).

Safety and Security

[Public Safety](#) offers many services to help you stay safe on campus, including safety escorts.

You'll want to stay informed about [campus closures and other safety-related notifications](#) via [Rave Alert](#).

Grizzly Care Team

The [Grizzly Care Team](#) brings together professionals from across the college to help you or other members of the college community who may pose a threat to the safety of the college community or an individual. If you see someone experiencing challenges, appearing distressed, posing a threat to their safety or someone else's safety, or causing a significant disruption to the GGC community, please [submit a Grizzly Care Team referral](#).

Equal Opportunity and Non-Discrimination Statement

Notice of Non-Discrimination

Georgia Gwinnett College is committed to providing a learning, working, and living environment that promotes personal integrity, civility, and mutual respect and is free of all forms of discrimination and harassment. In accordance with applicable law and Georgia Gwinnett College's Non-Discrimination and Anti-Harassment Policy, Georgia Gwinnett College prohibits discrimination on the basis of an individual's race, color, sex (including sexual harassment, marital, parental, and pregnancy status), sexual orientation, gender identity, gender expression, ethnicity or national origin, religion, age, genetic information, disability, creed, or veteran status ("protected status"), or any other protected status or characteristic as defined by law, in its programs and activities. No individual shall be excluded from participation in, denied the benefits of, or otherwise be subjected to unlawful discrimination, harassment, or retaliation under any GGC program or activity because of the individual's protected status.

Georgia Gwinnett College is an equal employment, equal access, and equal educational opportunity institution. It is the policy and practice of our

institution to recruit, hire, train, promote, retain, and educate persons without regard to their protected status, as required by applicable state and federal laws (including Title VI, Title VII, Title IX, ADA, Sections 503 and 504 of the Rehabilitation Act, and Executive Order 11246).

Any individual who feels that they may have been discriminated against should contact the Equal Opportunity and Title IX Compliance office at titleix@ggc.edu or 678-407-5085.

Students requiring disability related accommodations, please contact [Disability Services](#).

The following person has been designated to handle inquiries regarding the non-discrimination policies:

Sharon Stellato, J.D., Interim Title IX Coordinator

Building B, Suite 3700

678.407.5085

TitleIX@ggc.edu

For more general information, please visit the [Equal Opportunity and Title IX Office's website](#).

Sexual Misconduct Statement

Title IX prohibits discrimination on the basis of sex in education programs or activities operated by recipients of Federal financial assistance. Georgia Gwinnett College is committed to creating a safe learning environment for all members of our community, free from gender and sex-based discrimination, including sexual harassment, domestic and dating violence, sexual assault, and stalking, in accordance with Title IX of the Education Amendments of 1972. If you or someone you know is experiencing any of these behaviors, the College has staff and resources on campus to support and assist you. For a list of resources, please visit [Sexual Misconduct Resources](#).

Please note that the [Title IX/Sexual Misconduct Policy 4.1.7](#) designates all faculty members, including teaching assistants, as "Responsible Employees." Under GGC's Title IX/Sexual Misconduct Policy, all "Responsible

Employees” must report all disclosures of sex or gender-based discrimination or violence to GGC’s Title IX Coordinator. The Title IX Coordinator will reach out to provide resources, support, and information after receiving a report, but community members are not required to respond to such outreach. Reported information will remain private.

If you have (or someone you know has) experienced any form of sex or gender-based discrimination or violence and wish to speak with someone confidentially, please contact GGC’s Title IX Coordinator at TitleIX@ggc.edu or 678-407-5085. For more information regarding GGC’s Title IX procedures, reporting, or support measures, please visit the [Equal Opportunity and Title IX Compliance office’s](#) website.
